

Subject to priorities defined by the Technical Council and the Presidium, the results of <i>fib</i> 's work in Commissions and Task Groups are published in a continuously numbered series of technical publications called 'Bulletins'. The following categories are used:	
category	minimum approval procedure required prior to publication
Technical Report	approved by a Task Group and the Chairpersons of the Commission
State-of-Art Report	approved by a Commission
Manual, Guide (to good practice) or Recommendation	approved by the Technical Council of <i>fib</i>
Model Code	approved by the General Assembly of <i>fib</i>
Any publication not having met the above requirements will be clearly identified as preliminary draft. This Bulletin N° 67 was approved as an <i>fib</i> Guide to good practice by the Technical Council of <i>fib</i> in October 2011.	

This report was drafted by Task Group 3.8, *Technologies for green concrete structures*, within Commission 3, *Environmental aspects of design and construction*:
